UFO Report

UFO QUESTIONNAIRE

1. Description of the Object(s):

a. Shape Unable to determine shape — Night time.

b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.

dime

c. Color could not tell

d. Number one

e. Formation, if more than one _____

f. Any discernible features or details No

g. Tail, trail, or exhaust, including size of same compared to size of object(s)

Trailed a solid stream of yellow to white sparks.

at the time a complete tear drop shaped trail appeared and vanished, then a solid stream of yellow to white appeared

h. Sound; if heard, describe sound _____

None

i. Other pertinent or unusual features _____

2. Description of Course of Object(s):

a. What first called the attention of observer(s) to the object(s)?

The trail of "fire"

b. Angle or elevation and azimuth of object(s) when first observed.

About 45°

c. Angle or elevation and azimuth of object(s) upon disappearance.

About 20°

d. Description of flight path and maneuvers of object(s)

Traveled to the north, downward, changed its direction to the southeast climbing and vanished. Direction change was sharp from downward to climbing.

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

disappearance was to the south east instantaneously. The entire flight was under a cloud cover.

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

About 6 to 8 seconds

3. Manner of Observation:

a. Use one or any combination of the following items: Ground-visual, air visual, ground-electronic, air-electronic. (If electronic, specify type of radar)

Ground-visual

b. Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

None

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

4. Time and Date of Sighting:

a. Zulu time-date group of sighting 9:12 PM MEX STD Time

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

Night

July 26, 1965

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

Albuquerque New Mexico

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

[Redacted Name] Albuquerque, New Mexico

Supervisor, [Redacted] Laboratory

b. Military - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

No wind
